CAVE STORY DELUXE

This is a repackaging of the original Cave Story Deluxe Package by wadeizzle.

CHANGES

- Sue's Workshop and Miza are deader than disco, so they have been replaced by Booster's Lab (with .exe launcher) and Cave Editor.
- The mac port has been removed as there isn't much point in hiding a mac game behind a windows installer.
- Cave Story mp3 soundtrack separated from the package to reduce overall filesize.
- Cave Story Original Artwork were re-added in png format for greater quality.
- Ikachan's translation is now up to date.

Contact me at realmmaster26@hotmail.com if you find any faults with this package or if you have any suggestions on how to improve it.
